CLOUDSHIELD NAMES THREE NEW MEMBERS TO MANAGEMENT TEAM

CloudShield Fills Key Positions with Experienced Executives

SUNNYVALE, Calif. — April 6, 2004 — CloudShield Technologies, Inc., providing platforms for Open Network Services™, today announced the appointment of three new executives to key management positions: Peter Clark, CFO; Martin Desroches, VP of Engineering and Operations; and Randy Brumfield, VP of Commercial Business Development.

“Peter, Martin, and Randy are great additions to the CloudShield leadership team,” said Rusty Cumpston, CloudShield President and CEO. “Because our business is growing, we needed to add proven, successful leaders who can enable us to achieve our goals.”

Randy Brumfield, who came to CloudShield from TPG Ventures, has more than 15 successful years of marketing management and relationship development experience in the networking industry at both small and large companies. While at startups TransMedia Communications and OnStream Networks, Mr. Brumfield brought new product to market by leading marketing and product management. In addition, he developed relationships with, among others, Cisco and 3Com, both of which resulted in the acquisitions of TransMedia and OnStream, respectively.

Martin Desroches has more than 15 years of executive management experience, leading engineering and operations organizations within startup and established communications and optical networking companies. Mr. Desroches came to CloudShield from Ciena Corporation where he was Sr. VP of Hardware Engineering. He was VP of Hardware Engineering and VP of Operations at ONI Systems prior to its acquisition by Ciena in 2002 and spent 12 years in a variety of engineering and management positions with Nortel.

Peter Clark brings more than 20 years of corporate finance experience in the technology industry, including both world-class Fortune 100 and early stage businesses. Before coming to CloudShield Mr. Clark was CEO of The New Internet Computer Company, a company founded by Larry Ellison. Prior to that he was CFO of WhoWhere? Incorporated and managed its acquisition by Lycos Inc. Mr. Clark spent eight years with Sun Microsystems where he held various finance roles including Controller of the Software Products Division, Manager of Financial Planning & Analysis for Sun’s Pacific Rim business, and Business Planning Manager for Sun Microelectronics.

About CloudShield

CloudShield Technologies invented the world's first multi-gigabit programmable Open Network Services™ platform. With CloudShield platforms, partners can rapidly develop and deploy network applications and solutions that require complete traffic visibility and control for high-speed networks. CloudShield can be found on the Internet at www.cloudshield.com.
